A Column for Children Needed.

Mr. Enrou:-It seems to me that the value of the Garette would be much increased if, in every the wedding celebration which took place recently leane, there were a column calculated to interest and on Maul. From the courteous hespitality of the and instruct the children. Many papers are taking entertainers to the minutest detail of preparation, this course, and with the best results. When child, all was perfect. The residence of Mr. Cornwell, (laren know that the paper has something for them, ther of the bride) a large and well-built house, situthey anthripate its coming, and are orger to get hold ated near the mountains and surrounded by extenof it. Thus their minds are quickened, they get new aive grounds, laid out with great taste, is one of the ideas, and their mental powers are developed. You | most attractive of the many beautiful homes of Maui,

ment, and see if it does not prove a specess.

NOTES OF THE WEEK

There is a bark telegraphed as we go to prese, probably a lumber vessel.

Steamer Kilanea will not be ready for sea beforc the 29th, when she will leave for the circuit of ULYSSES S. GEANT, PRESIDENT OF THE UNITED STATES Hawnii.

Mr. Bartow re-opens his former auction mart this morning with a first-class credit sale of Eagli-h and European goods. The sale commences at 9.50. Passen Away .- On Sunday evening at 11 o'clock, Mrs. Judd (mother of the late Dr. Judd) quietly broathed her last at the family mansion. She had nearly completed her 94th year.

Among the through passengers by the City of New York whom we failed to notice last week, was John Roberts, Jr., the billiard champion of Enggomes, you had a fine passage of 1255 days from Sun Fran-tand. He was bound to Melbourne, where he has made engagements to play in public.

Conguess. - The following is what the Washington correspondent of the N. Y. Hemld says about the adjournment of Congress. "The passage of the Legislature Appropriation bill shows that the House means to expedite business, and hopes to adjourn the second week in June. The question however is complicated with the impeachment trial. It however it is delayed longer, a recess is probable to en-able members to attend the Conventions."

"Myss Monrange,"-We find in the Boston papers

the following notices of our Hawalian songstress. The Traveler says :- "Miss Montague sang Prascosia's trying music charmingly; her voice is light, but pure and exquisitely sweet, as flexible as ru ning water, and modulated with evident case and lecided taste. Miss Montague is still somewhat deficient in the marks of the highest vocal culture, and she is encumbered with a certain not ungracious timidity, but in both these respects she shows great guln over the early part of the season, and her bear ig is now as pleasing as her face always was ing is now as preasing as arrive more the announce-ment is made that "The Rose of Castile" will be performed at the Wednesday afternoon matinee, with Miss Montague as the heroine; and that young isdy's many friends will not lose so good an oppor-

tunity to hear her sweet singing." ANOTHER OCEAN CABLE PROPOSED .- Senator Surgent, says the S. F. Alta, has introduced a bill to urage and promote telegraphic communication between the United States and Asia. It authorizes the American and East Indian Telegraph Company of New York to lay, land and operate cables on the Pacific Coast within the jurisdiction of the United States, for a period of twenty years; provided that the Company shall commence active operations in two years, and shall have at least one cable in operaion from this continent to an Asistic Colony witha four years from the cusetment of this bill Sovernment to have priority in the use of these ables. The right after, smend or repeal the Act is reserved to Congress; and the rest of the bill au-horizes the Secretary of the Navy to detail one or more steam vessels to assist in the survey and sound-ngs, the hying of cables and transportation of ma-terish, and generally to afford assistance calculated to promote the success of the enterprise.

PROFESSOR COUNT DE ZABA .- This talented and the autouncement by the President of the Board of Education hat week. The subject of the lecture was the elucidation of a new system of studying universal history, of Mr. de Zaba's own invention. There have been quite a number of methods introduced beretofore with similar objects, but the most of them have falled on secount of too great complexity. Professor de Zaba claims that his system is so simple that a little child can understand it, while the most intelligent will be benefited by adopting it. By a system of charts divided into squares, each representing a century, which are again subdivided into 100, smaller divisions representing years, the important events of history are placed before the eye, thus producing a more vivid impression on the mind that is possible by any ordinary method. The system evidently possesses great merit, and we should like to see it renerally adopted in our schools both Hawaiiat and English.

A HEAVY RAIN .- On Friday last it commenced to rain about 10 a. M. and poured down so heavily, that for neveral hours the streets of the city were converted into roaring torrents of muddy water. The amount of rain which fell within 24 hours, as registered by the rain gauge of Mr. Hall, was 3.67 inches, while the rain in the mountains must have came down the Nunanu and Pauca streams, which were higher than have been known for a number of years. The amount of mud which these freshets annually deposit in our harbor, owing to the destruction by cattle of the protecting mantle of grass and shrubbery in the vallies and on the hill-sides, would, under shoost any other government than ours, in-cite to prompt measures for the prevention of the evil. But we have a novel method of conducting such affairs in this country. In the Summer we cart loam outs our streets at so much a load, and in Win-ter we cart off the mud which it forms, thereby furnishing somebody's carts with steady employment. We allow the cattle to lay bare the soil of the hills, that we may obtain a big appropriation for dredging the harbor, thereby providing somebody with a good fat job.

HOSOLULE Ito's Works .- Whatever may be the general depression in business, this institution scens to be always in a chronic state of activity. We took a rapid walk the other day through its spacious shops, and noticed that a number of orders were being filled chiefly for such of our plantations as are in a flourishing condition, and whose owners' sentiments in regard to the Trenty are something like the schoolboy's, who "dont care whether school keeps For the Pioneer Mills of Campbell and Turton, there is a large mill which is now receiving its finishing touches. It is the largest piece of work of the kind ever made here, and with one or two exceptions is the largest mill on the Islands. Its rollers are 26 inches by 48 inches, and weigh 31/2 tous each. The whole work seems to have been executed to the most thorough, and substantial, as well as elegant manner. For Messrs. Phelps and Atkins of Kobala, there are neder way a pair of those compound bollers, waich, on account of their great economy of fuel are becoming so popular among economy of fact are becoming so popular among planters. They measure 5½ feet by 16 feet. There is also nearly ready for shipment for the same firm, a fine horizontal steam engine, with cylinder 12 inch by 43, and the bed-plate of which is a solid casting, 22 feet in length. The Libne Plantation has a multitubular botler under way, which is intended to be set in connection with a Cornish boiler, and for the Kohala Plantation there is a Cornish boiler which measures 6 feet by 20 feet. In addition to filling these orders, the fron Works have on hand a number of vacuum pans of various sizes, which name trees orders, the trop works have on made and memor of vacuum pans of various sizes, which serve to furnish employment to the hands when there is a bill in business. This institution is among the most valuable adjuncts to national prosperity, in the Kingdom, and should receive every possible

RURAL FESTIVITIES. - Rarely does it happen in the experience of a pleasure seeker to be engaged in an affair so delightful, and so satisfying in all details as have space enough in the Gazette. Try the experi- and when dressed in its festal robes of ferns and flowers, brilliantly illuminated with many colored Who will furnish the articles? for ther should be lamps, enlivened by the graceful forms of "daughfresh and adapted to the circumstances of children ters (and sons) of beauty," moving in accord with ters and sampled to the circumstances of children living on these islands. There are mothers, who hold the pens of ready writers, and who can rival the inferest and gracefulness of Hannah More, Chariotte Elizabeth, and others whose writings have bleased the young. Such should extrestly avail themselves of this opportunity to do good.

And there are many teachers scattered over the Islands, who are well qualified to place before the young such examples and motives as may strengthen and develop, all that is smitable, and generous, and truthful, and repress and destroy whatever is selwelop, all that is amiable, and generous, and truthful, and right, and repress and destroy whatever is selfded, and mean, and wicked. Some do more good with the pen time they are able to accomplish image other way; and if teachers would employ this method they might fine themselves more successful than they had satisficated. When musting on some point pertaining to education till the fire barras, commit year burning thoughts to paper, and let the young have the benefit of them. And there are others, close observers of life and manners, who can contribute valuable articles for the Children's Column. Let them put forth the effort, and good will be the rethem put forth the effort, and good will be the recall.

ENNEL. other way; and if teachers would employ this method they might the themselves more successful than they had satterpated. And there are others, close observers of life and manners, who can contribute valuable articles for the Children's Column. Let them put forth the effort, and good will be the result.

SENEX.

Wasnington, April 6th.—The Heuse Committee on Pacific Railroods have agreed to report a bill directing a survey to be made of a route for a railroad from Austin, Texas. In Topolowampo Bay, on the Gulf of Mexico. The consent of the Maxima fovernment for such survey has already both obtained. The same hill was peperted by the Senate Committee last Monday. It appropriates only \$50,000, but Owen, the projector of the runte, says this will be sufficient to secure a report on the general resources and character of the country to be traverred, and issuer further appropriates in demonstrate the feasibility of the route by manne of the instrumentality of a survey.

THE TREATY.

We herewith publish the full text of the Treaty of Reciprocity, which was called for by the Assembly on Thursday last :

OF AMERICA. To all to whom these presents shall come, greeting Know ye, that whereas a Convention between the ed States of America and His Majesty the King of the Hawalian Islands, on the subject of Commercial Reciprocity, was concluded and signed by their respective Plenipotentiaries at Washington on the thirtieth day of January, eighteen hundred and seventy-five, the original

which Convention is word for word as follows: The United States of America and His Anjesty the King of the Hawaiian Islands, equally anima-ted by the desire to strengthen and perpetuate the friendly relations which have heretofore uniformly existed between them, and to consolidate their commercial intercourse, have resolved to enter into a Convention for Commercial Reciprocity. For this purpose, the President of the United Stateshas conferred full powers on Hamilton Fish, Secretary of States, and His Majesty the King of the Hawaiian islands has conferred like powers on Honorable Elisha H. Allen, Chief Justice of the Europ Extraordinary and Minister Plenipotentiary to the United States of America, and Honorble Henry A. P. Carter, Member of the Privy Council

of State, His Majesty's Special Commissioner to the United States of America. And the said Pienipotentiaries, after having ex-changed their full powers, which were found to be in due form, have agreed to the following Articles; ARTICLE L. For and in consideration of, the rights and privileges granted by His Majesty, the King of the Hawalian Islands in the next succeeding Article of this Convention, and as an equivalent therefor, the United States of America hereby agree to admit all the articles named in the fol lowing schedule, the same being the growth, manufacture or produce of the Hawaiian Islands,

into all the ports of the United States free of duty. SCHEDCLE. Arrew-root; castor oil; fruits, outs, vegetables; dried and undried, preserved and unpreserved, hides and skins undressed; rice; pulu; sandal, koa, or other ornamental woods; seeds, plants, shrubs or trees; muscavado, brown, and all other unrefined sugar, meaning hereby the grades of time, the resolution was carried.

Sugar herebofore commonly imported from the Hawaiian Islands and now known in the marke's of San Francisco and Dardend herebofore the Constitution. of San Francisco and Portland as "Sandwich

Island Sugar;" syrups of Sugar-cane, Melado, and molasses; tallow. Auticus II. For and in consideration of the AMERICA: I. For and in consideration of the rights and privileges granted by the United States of America in the preceding Article of the Convention, and as an equivalent therefor, His Majesty, the King of the Hawaiian Islands hereby agrees to admit all the articles named in the following schedule, the same being the growth, manufacture or produce of the United States of America. into all the ports of the Hawalian Islands, free of duty.

SCHEDULE. Agricultural implements; animals; beet, bacon, pork, ham and all fresh, smoked or preserved meats; boots and shoes; grain, flour, meal an philanthropic gentieman delivered a free lecture on bran, bread and bread stuffs of all kinds; bricks, Monday evening at the Lyceum, in accordance with lime and cement; butter, cheese, lard, tallow, builion; coal; cordage, naval stores, including iar, pitch, resin, turpentine raw and rectified; copper and composition sheathing, nails and bolts; cotton and manufactures of coiton, bleached and un-bleached, and whether or not, colored, stained, painted or printed; eggs; fish and oysters; and all other creatures living in the water, and the products thereof; fruits, nuts, and vegetables, green, dried or undried, preserved of unpreserved; bardware; hides, furs, skins and pelts, dressed or undressed hoop iron, and rivets, nails, spikes and bolts, tacks, brads or sprigs; from and steel and manufactures thereof; leather; lumber and timber of all kinds, round, bewed, sawed, and unmanufactu red in whole or in part; doors, sashes and blinds; machinery of all kinds, engines and parts thereof; ats and hay; paper, stationery and books, and all manufactures of paper or of paper and wood; petroleum and all oils for inbricating or illumina-sing purposes; plants, shrubs, trees and seeds; rice, sugar, refined or unrefined; sait; soap, shooks. staves and headings; wool and manufactures of wool, other than ready made clothing; wagons and carts for the purposes of agriculture or of drayage; wood and manufactures of wood, or of wood and metal except furniture, either upholstered or carved, and carriages; textile manufactures, made of a combination of wool, cotton, silk or linen, or of any two or more of them other than

ARTICLE III. The evidence that articles proposed to be admitted into the ports of the United States of America, or the ports of the Hawmian Islands, free of duty, under the first and account articles of this convention are the growth manufacture or the work. Ordered to be printed. this convention, are the growth, manufacture or tra work. Ordered to be printed. produce of the United States of America or of the Hawaiian Islands respectively, shall be established under such fules and regulations and conditions for the protection of the revenue as the two governments may from time to time respectively

ARTICLE IV. No export duty or charges shall be imposed in the Hawaiian Islands or in the United States, upon any of the articles pronosed to be admitted into the ports of the United States or the ports of the Hawaiian Islands free of duty, under the first and second articles of this convention.

ARTICLE V. The present convention shall take effect as soon as it shall have been approved and effect as soon as it shall have been approved and proclaimed by His Majesty the King of the Ha-wailan Islands, and shall have been ratified and duly proclaimed on the part of the government of the United States, and the laws required to carry it into operation shall have been passed by the Congress of the United States of America. Such assent having been given and the ratifications of the convention having been exchanged as provided in Article IV, the convention shall remain in force for seven years, from the date at which it may come into operation; and further, until the expira-tion of twelve months after either of the High

Done in duplicate, at Washington, the thirtieth
